Hi,

I am a producer for BBC World News and I would like to firstly express my deepest sadness and condolences for such tragic events in your part of the world overnight.

I was wondering if the Mayor, or if anyone from the City of Orlando Council, or public safety department is available to do a Skype interview on our programme this evening any time between 0100- 0700 British time, which would be between 2000- 0200 Florida time. It will be with our America Correspondent Katty Kay and will have world-wide coverage. It shouldn't take more than a few minutes.

Please let me know if this could work, and I will be in touch to organise further details.

Dear Mr. Mayor,

Hmmm, 3 hours to storm the building ? Columbine HS taught us that waiting in these mass shootings is a mistake. Didn't Orlando PD get the memo on that one ? This seems like a serious lack of qualified TACTICAL leadership and possibly training. I am very sorry this happened and the PD didn't cause this but geeze.....we really need to be on the same page these days. Hope you guys share your knowledge freely – and maybe some future good will come of it.

My thoughts are with your community on this horrible day.

June 12, 2016

From: Bishop John Noonan, Catholic Diocese of Orlando

Mayor Dyer:

A sword has pierced the heart of our city. Since learning of the tragedy this morning, I have urged all to pray for the victims, the families and first responders. I pray that the Lord's mercy will be upon us during this time of sadness, shock and confusion. I urge people of faith to turn their hearts and souls to the great physician, our Lord Jesus Christ, who consoles and carries us through suffering with mercy and tenderness. The healing power of Jesus goes beyond our physical wounds but touches every level of our humanity: physical, emotional, social, spiritual. Jesus calls us to remain fervent in our protection of life and human dignity and to pray unceasingly for peace in our world.

Priests, deacons and counselors from the Diocese of Orlando and Catholic Charities of Central Florida are serving at the Aid Center established by the City of Orlando. They are on site helping victims and families on the front lines of this tragedy. Throughout the day, they are offering God's love and mercy to those who are facing unimaginable sorrow. They will remain vigilant and responsive to the needs of our hurting brothers and sisters.

I have asked all of our parishes to include prayer intentions during the celebration of Sunday Mass today where close to 400,000 registered Catholics participate in nine counties of Central Florida. At our 91 parishes and missions, today's prayers have been offered for victims of violence and acts of terror...for their families and friends...and all those affected by such acts against God's love. We pray for the people of the city of Orlando that God's mercy and love will be upon us as we seek healing and consolation

***Recognizing the affliction brought to our city, our families and our friends, we invite our faith communities to join us for a 'Vigil to Dry Tears' for all who are affected by this massive assault on the dignity of human life. It will be held on Monday, June 13, at 7:00 p.m. in St. James Cathedral, 215 N. Orange Avenue.***

I understand there are other city events which are also being planned and I apologize for any conflict with these other events of solidarity. I hope this opportunity to join each other in prayer will bring about an outpouring of the mercy of God within the heart of our community.

Dear Mayor Buddy Dyer:

As a registered nurse, I am in shocked with the recent events in Orlando FL. I believe in HAVING best life outcome. I would like to discuss having miracles life warrior Red, White, Blue & Rainbow "Angel WarriorWings™ (to be place on runners/walkers/football players/players/club goers/wearable by patients' family/fitness) shoes when walking-running to raise money for human rights/care for the medically undeserved. I believe my Red, White, Blue & Rainbow angel wings/angels home decal/blue angel wings idea can further help support human rights orgs.

How can I obtain a 30 sec pitch to you & your team-about discussing licensing my above idea to help with the following: the results will give a percentage of profits toward the funding for human rights org. \*\*Let's try to get HSN CEO Mindy Grossman & CEO GLAAD on my brand idea\*\* Maybe we can manufacturer/mass produce all the items.

Let's design Red, White, Blue & Rainbow Warrior Wings ANGEL HONOR™ Wings & FAMILY LIFE MATTER OATH & YO SOY IMPARABLE™ & I AM UNSTOPPABLE™ wristbands/warrior tees.

Also, I want to design Red, White, Blue & Rainbow Angel Warrior Wings (House Decals) to be placed in the window of those user's home who support human rights org/fight against domestic terrorist flags for cars/homes. My long-term goal is to take my Red, White, Blue & Rainbow Angel Miracle Warrior Wings™ (designs) to be sold on a shopping television network (HSN?? \*lets get my idea on HSN/call Mindy Grossman CEO of HSN), local fundraising, your org's website, sold on NFL.COM Center/sold on amazon.com, sold at healthcare centers etc to further help bring in additional percentage from donation.

I look forward to further discussion. Let's set-up time to discuss next week and bring my Red, White, Blue & Rainbow warrior wings tees brand idea to your org in network vendors/providers.

Florida

Dear Sir/Madam,

I'm writing on behalf of UNITED SIKHS and also the Sikh Community of Florida.

We extend our support and prayers for those who are injured and to those who lost their loved ones in the last night shooting in Orlando, Florida.

We strongly condemn this senseless act of violence and stand in solidarity with our fellow Americans against the evil of terrorism.

The Sikh Community of Orlando and the surrounding areas, offers their services and assistance to the public of Orlando. Please let us know how can we assist in this difficult time.

In addition to raising a fund for the survivors and their families, the Sikh Community is also planning for a vigil in honor of the victims.

We would appreciate if we could hear back from a representative of the office. It would very helpful in connecting our efforts to the families who need it the most.

Thanks and Regards,

Dear Sir,

In light of the mass shootings my thought is for there to be an activation switch for the sprinkler system behind the bar(s). All buildings need to have them. If the shooter was surprisingly showered with water, possibly it might put him off balance for a few seconds and minimize carnage. Naturally this added measure wouldn't be advertised.

Gurpreet ji,

Beautifully drafted, but I have one suggestion - I'm not comfortable with the use of word "terrorism"( until the government announces it as the terrorist attack) . Can we change the word to "hate" ?

Thank you,

Jaspreet

**Subject:** Our Community's Hearts and Prayers Are with Pulse Nightclub Shooting Victims and Their Families

This morning our community, and our nation, experienced a horrific crime. Our hearts and prayers are with the victims and their families.

We are dealing with a tragedy that we never could have imagined. What happened this morning in our city could have happened in any community in the country. President Barack Obama has provided the support of the federal government, and Governor Rick Scott accepted my request for a state of emergency in the City. This allows us to bring in additional resources to support our efforts.

We are focused on identifying the victims and notifying their families. Law enforcement is working the scene as efficiently and diligently as possible while being respectful to the remains of the deceased. The names of the victims after their next of kin have been notified are being added to [cityoforlando.net/victims](http://cityoforlando.net/victims).

I am proud of how our community has responded to this tragedy. Our dedicated first responders and hospital staff deserve our thanks. Their actions have saved many lives. And today many residents donated blood to help the victims and joined one another to lend support.

We have set up a hotline for family members of the victims: 407.246.4357. Aspire Health has also offered grief counselors through the Zebra Coalition who can be reached at 407.228.1448.

We understand our community is grieving and that vigils are being planned but please hold off on vigils - they represent a serious strain on our limited City and public safety resources, which we need to dedicate to law enforcement and victims.

If you are seeking a location to leave memorial items, please use the green space in front of the Dr. Phillips Center for the Performing Arts in Downtown Orlando.

Despite the fact that this crime will have a lasting effect on our city and country, Orlando is a strong community. We will be grieving together in the upcoming days, weeks and months. We need to support each other and love each other. This tragedy will not define us, but will bring us together.

- Buddy Dyer, Mayor

Dear Mayor

It is difficult to fathom the depth of pain you and your constituents face at this tragic time.

I simply want to offer my condolences to all concerned, and heavenward thoughts for the welfare of survivors, the families and loved ones of all connected with this appalling tragedy.

You and other officials will need all the strength you can muster to move care-fully and lovingly among such a large number of grieving people.

**Subject:** Why???

Mr. Buddy Dyer,

I write this message with a heavy heart and a prayer for Orlando. Your city has had many burdens to bear this weekend.

I do want to share my opinion; please do not take this as a threat, it is nothing more than an opinion.

Simply put I believe it was very crass to include a so called "Islamic Religious Leader" in the Press Conference this morning. This act by the City of Orlando officials devalued the loss of life suffered last night. Once again our Country, not just Orlando FL, but our Country has suffered yet another attack by Islamic Terrorists.

Islam wants us to believe they are a pacifist religion. That is the farthest thing from the truth there is. One only has to study Sharia Law to understand that the Radical Islamic Terrorists are what the Koran is really about. CAIR has declared they believe Islam is above our laws.

Till our elected official in this Country face the truth and uphold our Constitution, our Country will continue to face this enemy from within.

I pray that God will give you and all the elected officials like you, the ability to see the light of day and the wisdom to do the right thing.

John in CA

I am going to be out of the office for the rest of this week without access to email.

But I'll be back on Monday, June 13 -- and will look forward to hearing what you have to say ... well, unless what you have to say is mean. Or written in ALL CAPS. Or involves a chain email that's been forwarded 147 times. I'll be honest: I don't much look forward to any of those things.

Otherwise, though, I think we're good. And I thank you for writing ... and for reading.

This morning our community, and our nation, experienced a horrific crime. Our hearts and prayers are with the victims and their families.

We are dealing with a tragedy that we never could have imagined. What happened this morning in our city could have happened in any community in the country. President Barack Obama has provided the support of the federal government, and Governor Rick Scott accepted my request for a state of emergency in the City. This allows us to bring in additional resources to support our efforts.

The names of the victims after their next of kin have been notified are being added to [cityoforlando.net/victims](http://cityoforlando.net/victims).

I am proud of how our community has responded to this tragedy. Our dedicated first responders and hospital staff deserve our thanks. Their actions have saved many lives. And today many residents donated blood to help the victims and joined one another to lend support.

We have set up a hotline for family members of the victims: 407.246.4357. Aspire Health has also offered grief counselors through the Zebra Coalition who can be reached at 407.228.1448.

We understand our community is grieving and that vigils are being planned but please hold off on vigils - they represent a serious strain on our limited City and public safety resources, which we need to dedicate to law enforcement and victims.

If you are seeking a location to leave memorial items, please use the green space in front of the Dr. Phillips Center for the Performing Arts in Downtown Orlando.

Despite the fact that this crime will have a lasting effect on our city and country, Orlando is a strong community. We will be grieving together in the upcoming days, weeks and months. We need to support each other and love each other. This tragedy will not define us, but will bring us together.

- Buddy Dyer, Mayor

We understand our community is grieving and that vigils are being planned but please hold off on vigils - they represent a serious strain on our limited City and public safety resources, which we need to dedicate to law enforcement and victims.

If you are seeking a location to leave memorial items, please use the green space in front of the Dr. Phillips Center for the Performing Arts in Downtown Orlando.

Despite the fact that this crime will have a lasting effect on our city and country, Orlando is a strong community. We will be grieving together in the upcoming days, weeks and months. We need to support each other and love each other. This tragedy will not define us, but will bring us together.

- Buddy Dyer, Mayor

FIRST is currently out of the office and will return Monday, June 13, 2016. See below for information on reporting issues, installing the application, manual submission of DSRs, and what to do in off-hours critical issue situations.

To report issues:

1. Make a screen shot of any error messages received.
2. Copy the three log files from this directory C:\SiemensEnergy.WPF\RNA:
  - FRW\_Debug.log
  - FRW\_Info.log
  - FRW\_Error.log
3. Email the screen shot of the error message (if available) and the three log files to first.energy@ siemens.com. FIRST will engage IT to assist in finding a resolution to your issues.

To install the application:

1. Plan to begin the installation in a location with a good internet connection as the application will take a while to install.
2. Copy the following .exe file to your local computer:  
\\ww007.siemens.net\E72k\Apps\EPR\PROD\Support\Installation<file:///\\ww007.siemens.net\E72k\Apps\EPR\PROD\Support\Installation>
3. Next, run the \*.exe file (double-click it) to install the application.
4. If any issues are encountered during installation of the Event Reporting application, please follow the instructions above for reporting issues, and email FiRST at first.energy@siemens.com<mailto:first.energy@siemens.com>.

Manual submission of DSRs when technical issues occur:

If you are having a technical issue with submittal of a Daily Status Report (DSR), a manual email update to DSR recipients is considered an acceptable temporary solution until the next business day. Use a DSR you already emailed as a guide, delete the existing information, and create the one you need for the day.

Off-hours critical issue situations:

If you experience other critical issues with Event Reporting during off hours and require assistance, please email Louise Mills at louise.mills@ siemens.com. Critical issues are defined as a failure to submit an outage report that will jeopardize a milestone payment or site demobilization.

Please do not contact the IT Service Desk for Event Reporting issues. FiRST will coordinate IT response as needed.

The athletic training room is closed for summer. I will come in to check physicals and emails once a week.

If you need to turn in a physical, please drop them off at the main campus front office. If complete, I will give the Coach the athlete's EMT card signed by me for clearance. They will be able to participate as soon as the Coach receives the card.

Please verify you have the correct forms and the most updated forms. You may look on the athletics website to verify the forms. [www.winterparkathletics.com](http://www.winterparkathletics.com) - parent information - athletic physicals

Have a safe summer.

Thank you, Mayor. As a proud Orlando citizen and media member watching all these horrific events unfold from New York City it was comforting to see your leadership on every television I passed. I received your email as I am boarding the earliest flight I could book to return to serve and grieve with my community and family. Even with all the sorrow I even more proud of my city than I already was. It's going to be a long flight back, and even longer week to come but your thoughtful email made a huge difference. If there is anything I can do to help you or the city I call home please think of me.

This morning our community, and our nation, experienced a horrific crime. Our hearts and prayers are with the victims and their families.

We are dealing with a tragedy that we never could have imagined. What happened this morning in our city could have happened in any community in the country. President Barack Obama has provided the support of the federal government, and Governor Rick Scott accepted my request for a state of emergency in the City. This allows us to bring in additional resources to support our efforts.

We are focused on identifying the victims and notifying their families. Law enforcement is working the scene as efficiently and diligently as possible while being respectful to the remains of the deceased. The names of the victims after their next of kin have been notified are being added to [cityoforlando.net/victims](http://cityoforlando.net/victims).

I am proud of how our community has responded to this tragedy. Our dedicated first responders and hospital staff deserve our thanks. Their actions have saved many lives. And today many residents donated blood to help the victims and joined one another to lend support.

We have set up a hotline for family members of the victims: 407.246.4357. Aspire Health has also offered grief counselors through the Zebra Coalition who can be reached at 407.228.1448.

We understand our community is grieving and that vigils are being planned but please hold off on vigils - they represent a serious strain on our limited City and public safety resources, which we need to dedicate to law enforcement and victims.

If you are seeking a location to leave memorial items, please use the green space in front of the Dr. Phillips Center for the Performing Arts in Downtown Orlando.

Despite the fact that this crime will have a lasting effect on our city and country, Orlando is a strong community. We will be grieving together in the upcoming days, weeks and months. We need to support each other and love each other. This tragedy will not define us, but will bring us together.

Dear Mayor Dyer,

My thoughts and prayers are with you and the victims of the Orlando massacre.

I pray that those wounded recover, and that all those who were victims receive the help and support they will need.

Peace and blessings to you and the citizens of Orlando.

SUBJECT: 2<sup>nd</sup> MEMO Mass Shooting Incident

DATE: June 12, 2016, 4 p.m.

We were notified earlier law enforcement believes their investigation may continue through tomorrow. With tomorrow being a weekday this will impact our services for Links 7, 11, 18 and 40 along Orange Avenue between Kaley and Grant streets. The Transportation Division will coordinate detours for these four routes in line with the City of Orlando's rerouting of traffic. We may have to use additional buses to maintain scheduled services.

Currently, at the request of Family Services we have deployed four vehicles to relocate victims and family members from the downtown Hampton Inn to the Beardall Senior Center. Since the Governor has placed Orange County in a state of emergency we will need to keep accurate

records of time and equipment being used in our assistance. Finance will provide us with the appropriate paperwork for proper record keeping.

Additionally, we have learned one of our employees had a family member injured during this incident. The family member is currently in surgery, however, at this time we do not have any more information on their status. Please keep the family member and our employee in your thoughts and prayers.

Please remain vigilant in your work areas. Please notify your immediate supervisor of any suspicious acts.

SUBJECT: Mass Shooting Incident  
DATE: June 12, 2016

Earlier this morning our community was impacted by a tragic incident resulting in at least fifty people losing their lives and many more hospitalized. We are all shocked and saddened by this and are prepared to do what we can in assisting local emergency response teams and the community as a whole work through this matter.

Staff is being deployed to the City's Emergency Operations Center (EOC) to assist in any coordinated transportation effort that may be needed. Also, we are encouraged to go to a nearby blood bank to donate blood. This will help in the care of those who were injured and are

still hospitalized. I am certain they are in need of all blood types. So, please heed to this request.

We do understand this incident will have an impact on our local services that serve the Orange Avenue corridor. The Transportation Department is rerouting services while law enforcement conducts their investigation. These detours will be in effect until we have been given an all clear.

In closing, please let your immediate supervisor know if you have been impacted by this incident. Through our healthcare plan there are several resources you can access.

As more information is made available we will share with you.

Friend,

We are still reeling from the tragic news that a gunman opened fire on the 2am capacity crowd at Orlando's Pulse Nightclub leaving 50 people dead and 53 injured.

We are heartbroken and angry that senseless violence has once again destroyed lives in our state and in our country.

Gay clubs hold a significant place in LGBTQ history. They were often the only safe gathering place, and this horrific act strikes directly at our sense of safety. June commemorates our community standing up to anti-LGBTQ violence at the Stonewall Inn, the nightclub that became the first LGBTQ site recognized as a national monument.

We have received a steady stream of emails and messages from those seeking to help or to make sense of the senseless. We make no assumptions on motive. We will await the details in tears of sadness and anger. We stand in solidarity and keep our thoughts on all whose lives have been lost or altered forever in this tragedy.

*Below are resources and ways to help the victims, families, and friends affected by the horrific mass shooting at Pulse.*

#### **Facebook Safety Check-In:**

Let family and friends know you are safe by using Facebook's Safety Check-In feature:  
<https://www.facebook.com/safetycheck/orlando-shooting-jun12-2016/>

#### **GoFundMe:**

Equality Florida has set up a GoFundMe Account that has already raised over \$500,000 of the current \$1,000,000 goal. The funds raised will go directly to the victims and families affected by this tragedy. Donate here: <https://www.gofundme.com/PulseVictimsFund>

#### **Counseling:**

- The GLBT Community Center of Central Florida is referring folks to First Unitarian Church, 1901 east Robinson street, Orlando, FL 32803 for grief counseling.
- For anyone needing support today, you may call the Zebra Coalition hotline at (407) 228-1446 to speak to a counselor.
- From the UCF LGBT student services director: Our LGBT student hang out space, Pride Commons, will reopen Monday through Friday from 9am-5pm, with group counseling available

from 1pm-2pm daily.

Maybe you ought to give tax breaks and financial help to all victims of violent crime in your city. I got shot in my front yard by a perp running from police jumping my fence a month ago. I posted it to your facebook page, but you do not respond. All gun crime Victims should get your attention, not just the ones that get you on nationwide tv.

Law enforcement is working the scene as efficiently and diligently as possible while being respectful to the remains of the deceased. The names of the victims after their next of kin have been notified are being added to [cityoforlando.net/victims](http://cityoforlando.net/victims).

I am proud of how our community has responded to this tragedy. Our dedicated first responders and hospital staff deserve our thanks. Their actions have saved many lives. And today many residents donated blood to help the victims and joined one another to lend support.

We have set up a hotline for family members of the victims: 407.246.4357. Aspire Health has also offered grief counselors through the Zebra Coalition who can be reached at 407.228.1448.

We understand our community is grieving and that vigils are being planned but please hold off on vigils - they represent a serious strain on our limited City and public safety resources, which we need to dedicate to law enforcement and victims.

If you are seeking a location to leave memorial items, please use the green space in front of the Dr. Phillips Center for the Performing Arts in Downtown Orlando.

Despite the fact that this crime will have a lasting effect on our city and country, Orlando is a strong community. We will be grieving together in the upcoming days, weeks and months. We need to support each other and love each other. This tragedy will not define us, but will bring us together.

Buddy,

I wish there was something I could do. I feel so terrible for the victims, their family and friends, and to all of the first responders who had to deal with this tragedy. If you need me or my city for anything, please don't hesitate to ask. My heart goes out to our great City of Orlando. I am stunned and so very sad for everyone.

God bless you all,

This morning our community, and our nation, experienced a horrific crime. Our hearts and prayers are with the victims and their families.

We are dealing with a tragedy that we never could have imagined. What happened this morning in our city could have happened in any community in the country. President Barack Obama has provided the support of the federal government, and Governor Rick Scott accepted my request for a state of emergency in the City. This allows us to bring in additional resources to support our efforts.

We are focused on identifying the victims and notifying their families. Law enforcement is working the scene as efficiently and diligently as possible while being respectful to the remains of the deceased. The names of the victims after their next of kin have been notified are being added to [cityoforlando.net/victims](http://cityoforlando.net/victims).

Oh! How nice mayor!  
Nothing about the victims who were gunned down because they were gay, lesbian and transgender????

Don't bury the LGBT community in your homophobia!

Grow some balls and speak out against this hate crime against the lgbt community or you're simply a coward!!!

Well said, Mayor. You represent this city very well. Great job Chief Mina, Heather and the entire city crew.

This morning our community, and our nation, experienced a horrific crime. Our hearts and prayers are with the victims and their families.

We are dealing with a tragedy that we never could have imagined. What happened this morning in our city could have happened in any community in the country. President Barack Obama has provided the support of the federal government, and Governor Rick Scott accepted my request for a state of emergency in the City. This allows us to bring in additional resources to support our efforts.

We are focused on identifying the victims and notifying their families. Law enforcement is working the scene as efficiently and diligently as possible while being respectful to the remains of the deceased. The names of the victims after their next of kin have been notified are being added to [cityoforlando.net/victims](http://cityoforlando.net/victims).

I am proud of how our community has responded to this tragedy. Our dedicated first responders and hospital staff deserve our thanks. Their actions have saved many lives. And today many residents donated blood to help the victims and joined one another to lend support.

We have set up a hotline for family members of the victims: 407.246.4357. Aspire Health has also offered grief counselors through the Zebra Coalition who can be reached at 407.228.1448.

We understand our community is grieving and that vigils are being planned but please hold off on vigils - they represent a serious strain on our limited City and public safety resources, which we need to dedicate to law enforcement and victims.

If you are seeking a location to leave memorial items, please use the green space in front of the Dr. Phillips Center for the Performing Arts in Downtown Orlando.

Despite the fact that this crime will have a lasting effect on our city and country, Orlando is a strong community. We will be grieving together in the upcoming days, weeks and months. We need to support each other and love each other. This tragedy will not define us, but will bring us together.

- Buddy Dyer, Mayor

# UCF Stands with Orlando Against Terror

Orlando was attacked today. How painful, frightening, and infuriating it is to write that sentence. As President Obama said, this was “an attack on all of us, and on the fundamental values of equality and dignity that define us as a country.”

We are working with law enforcement to determine whether the attack killed or injured UCF students, faculty, staff, and alumni. When we have more information, we will share it with you.

In time, I expect we all will know someone affected. A friend. A sister. A partner. A co-worker. To the victims of this attack — and their loved ones and friends — I offer the sincere prayers and hopes of the entire UCF family.

Earlier today, I extended to Orlando Mayor Buddy Dyer all of the university’s resources to help our community. To start, on Monday [UCF will host a blood drive on campus](#). I

hope you will join me there.

While we are still learning about this attack, it appears that the shooter targeted the LGBTQ community. The UCF Creed calls on all of us to “promote an open and supportive campus environment by respecting the rights and contributions of every individual.”

With our Creed in mind, I tell our LGBTQ students, faculty, staff, and alumni this: You are not alone. Your university stands with you.

In attempting to make sense of this senselessness, my mind is drawn to wise words Dr. Martin Luther King, Jr. spoke nearly 50 years ago.

*“When our days become dreary with low-hovering clouds of despair, and when our nights become darker than a thousand midnights, let us remember that there is a creative force in this universe, working to pull down the gigantic mountains of evil, a power that is able to make a way out of no way, and transform dark yesterdays into bright tomorrows. Let us realize that the arc of the moral universe is long but it bends toward justice.”*

As they were true then, so are Dr. King’s words true today.

This morning our community, and our nation, experienced a horrific crime. Our hearts and prayers are with the victims and their families.

We are dealing with a tragedy that we never could have imagined. What happened this morning in our city could have happened in any community in the country. President Barack Obama has provided the support of the federal government, and Governor Rick Scott accepted my request for a state of emergency in the City. This allows us to bring in additional resources to support our efforts.

We are focused on identifying the victims and notifying their families. Law enforcement is working the scene as efficiently and diligently as possible while being respectful to the remains of the deceased. The names of the victims after their next of kin have been notified are being added to [cityoforlando.net/victims](http://cityoforlando.net/victims).

I am proud of how our community has responded to this tragedy. Our dedicated first responders and hospital staff deserve our thanks. Their actions have saved many lives. And today many residents donated blood to help the victims and joined one another to lend support.

We have set up a hotline for family members of the victims: [407.246.4357](tel:407.246.4357). Aspire Health has also offered grief counselors through the Zebra Coalition who can be reached at [407.228.1448](tel:407.228.1448).

We understand our community is grieving and that vigils are being planned but please hold off on vigils - they represent a serious strain on our limited City and public safety resources, which we need to dedicate to law enforcement and victims.

If you are seeking a location to leave memorial items, please use the green space in front of the Dr. Phillips Center for the Performing Arts in Downtown Orlando.

Despite the fact that this crime will have a lasting effect on our city and country, Orlando is a strong community. We will be grieving together in the upcoming days, weeks and months. We need to support each other and love each other. This tragedy will not define us, but will bring us together.

1345CT\* 6/12/'16\* Wow: Now a days you cannot take a break away from the squawking TV for cup of coffee with friends or do your weekly shopping or you will miss the spinning of the "earth" for sure. Could this be the outcome of Trumps promised "beautiful" wall? Or Trumps and the NRA's call for more deadly weapons on our streets "assault weapons" of which there is absolutely no need off on our streets? The NRA/GOP explanation of we must have something to defend ourselves in case the bad guys attack us, "holds" absolutely no water at all as by that time most of us will be dead or maimed. I wrote after the nightclub shooting in Paris that a much better approach would be that a bullet proof armored box type be installed in these huge nightclub "bars, dance halls, and such" and manned during performances as a deterrent against holdups or ISIS types and ordinary terrorists. All I can say for Trump, is that he really has those bad people riled up and in the end that wall of his is a bad or was a bad idea and all that money spent to build his "beautiful Wall" will do no good and be even less effective than those "Crusades" were in the days of old? By the way curiosity forces me to ask approximately how many bodies can one of these assault weapon bullets go through. How many people can one bullet from one of these weapons "Kill"? Ban these weapons from our streets.

We must remember that gay bashing has been going on and as I found out, ever since 1944 when I was drafted into the army. I remember that I was invited several times to accompany some bully types on a night out to do some "bashing" and being a country boy not fully understanding what bashing meant I declined as I was broke and mostly did not want to show my ignorance off to the world in front of the bully city slickers right here at home. We must not blame everything on the ISIS, we got plenty of the exactly same type of basher or terrorists among our own "protect our Christian Values People" as there ISIS killers. The ISIS do it openly and take credit but the domestic basher does it in gangs on blacks, gays, and shy weaklings, and worst of all women and most all foreigners as Mr. Trump keeps constantly telling us they are absolutely not wanted, and even as young school kids cause mayhem in the dark of night and then have the bully fathers hire lawyers to keep them out of jail? After much personally study young George Bush/Cheney were "a bully" but Trump got them beat by a mile at least, with his constant agitating instigation speeches always "egging on" as any gambler bully that he is will always be prone to do and has for at least the last year he "has" done!

I personally view this Orlando shooting as a Trump/GOP instigated open racist rebellion against the whole of the "Earth". They refused to work with our duly elected President, they are still rebelling against calling a vote on his appointee to the Supreme Court. They are still adamantly calling for repeal of Obama Care? Is there any wonder every bully is being constantly "egged" on and on by Trump/GOP? Surely not for peaceful means but to only foment more of these horrendous attacks and the continued none action by GOP will only bring more and more of these attacks and Trump is only too happy to oblige! An 8 (eight) year fomented GOP rebellion against a free democracy? How is a wall going to stop that?

Mayor Dyer:

I know you have much on your plate at this time, and I hesitate to add to that. Nationally, the Presbyterian Church (USA) has a program called Presbyterian Disaster Assistance. We have trained teams that provide crisis counseling, and resources that can be used for recovery efforts. Please let me know if there is any way in which we can help. All it takes is a call from me to mobilize PMA support.

Know that our congregations continue in prayer for our community and city, our civic leaders, and our police, fire department, EMS, and first responders. I will pass along to them your request about holding off on vigils, and continue to listen for needs such as donating blood in the days ahead.

**Subject:** The City Family's Hearts and Prayers Are with Pulse Nightclub Shooting Victims and Their Families

Sunday morning, our community experienced a horrific crime. As a City family, our hearts and prayers are with the victims and their families.

We are dealing with a tragedy that we never could have imagined. What happened this morning in our city could have happened in any community in the country.

I am proud of how our City employees have responded to this tragedy. Thank you to our police officers and firefighters who responded to the scene. Their actions have saved many lives. And also thank you to the many other employees who assisted today to lend support. The dedication of our employees has helped lead our City through today's events.

Currently, we are focused on identifying the victims and notifying their families. Law enforcement is working the scene as efficiently and diligently as possible while being respectful to the remains of the deceased. The names of the victims after their next of kin have been notified are being added to [cityoforlando.net/victims](http://cityoforlando.net/victims).

We have set up a hotline for family members of the victims: [407.246.4357](tel:407.246.4357). Aspire Health has also offered grief counselors through the Zebra Coalition who can be reached at [407.228.1448](tel:407.228.1448).

We understand our community is grieving and that vigils are being planned, but please hold off on vigils. They represent a serious strain on our limited City and public safety resources, which we need to dedicate to law enforcement and victims.

If you are seeking a location to leave memorial items, please use the green space in front of the Dr. Phillips Center for the Performing Arts in Downtown Orlando.

Message of support for the UK

Hello i imagine you are inundated by messages all of the time but especially now, i just want you to know that your wonderful city and fantastic and welcoming people have solidarity from the UK.

My self and my wife plan on coming to Orlando next year and nothing that has happened will put us off doing so. We are newly weds and plan on spending our honeymoon in your fantastic city and state, we plan on seeing the space center and your many fantastic scientific establishments throughout the state of Florida.

To us Florida represents some of the most important contributions to the future of mankind and it will be a privilege to see them first hand.

No terrorist, no hate-filled individual will ever be able to diminish the love we have for the accomplishments of the United States of America and of that of the State of Florida.

It is our greatest hope that you and your people can come through this tragedy with your heads held high.

All or love

**Subject:** My Orlando visit...A loving gathering...A hateful act of violence - Two Featured Articles - Request for your support

Dear Buddy:

This weekend I had the honor to attend and deliver an advocacy address at the Family Cafe conference attracting some 9,000 professionals, volunteers, parents and other family members focused on the needs of individuals with disabilities. I was amazed at the energy and enthusiasm to make progress for those family members with special needs who need us most.

The gathering was a festive and fabulously affirming convening. The blend of joyous reunions and the opportunity to make new friends was inspiring.

The conference took place in Orlando, just 10 miles away from the site of the horrific massacre at the Pulse Club at which 50 innocent people were slaughtered...and an equal number were wounded and whose lives hang in the balance.

How ironic that I was exhilarated by the love and devotion which was pervasive throughout the conference, only to awaken Sunday morning to the news of the ultimate act of hate...mass murder motivated, it appears, by the perverse need to destroy people perceived to be different and therefore disposable.

Like you, I'm stunned that anyone would take such a despicable step in the direction this killer chose. The arrogance of a person who believes that bigotry justifies murder shocks the conscience of anyone who values justice and peace.

As a Floridian, I'm stunned, but at times like this, geography is irrelevant. Acts of hateful rage can erupt anywhere.

The horrible massacre is the latest in an agonizing series of mass murders which plague our nation and other parts of the world.

Hate is a perverse and powerful motivator. Fighting the forces of evil must be a priority for everyone who cares about our individual and collective futures.

Words of outrage and sentiments which attempt to sooth the pain of family members and colleagues of the victims are hollow if we do not advocate for sensible reforms.

While we grieve for this tragic loss of life, I sincerely believe we must energize our resolve to take action.

I stand with law enforcement leaders, public health allies, reform advocates and families affected by firearms violence in this fight to bring needed legal redirection.

We all should advocate initiatives which which limit the sale of military-style weapons with multi-round ammo magazines, provide more preventive safeguards through expanded background checks, and enact further restrictions on gun show commerce...nationwide...not just locally.

Some voices claim that firearms are not the problem, criminality is. Yes, defending our families and property is a priority, but let's admit that the proliferation of firearms feed their availability to criminals through theft and illegal sales.

Legitimate gun ownership for self protection, historic collections and sports is not at issue....but what is clear is we are at a point in our lives when logical lines of defense must be drawn.

The debate should not be whether any change is needed.....but to what degree are we willing to recognize that slaughter can be prevented if we mesh quality mental health services with strong and enforceable anti-violence laws.

It is our first responders who put their lives at risk every day, and their counsel is vital to our safety and security.

I believe that the multi-faceted violence issue deserves our attention so that our elected officials hear the voices of citizens who support a balanced approach to this vital public policy debate.

## **My Request for Your Support - Please Respond**

June is my favorite month...I love celebrating Father's Day and shortly afterward is my June 26th birthday....

A loyal supporter of my 4Generations Institute's advocacy and communications work has generously agreed to offer a dollar for dollar match for all financial gifts received between now and the end of June.

This friend, who chooses to remain anonymous, is aware that much of my work in media communications, public policy counsel, sharing strategies for effective advocacy and helping young advocates comes without pay.

And that's true....trust me.....I say "Yes" to good causes more often than you can imagine!

My service as the advocates' advocate is a role I cherish and as you know, the demand is great.

I feel so fortunate to have the friendships and allies I've nurtured over the years and hope that this request for support of my work is taken in this spirit.

I sincerely believe that "*Ask and ye shall receive*" applies to my communications and advocacy work. I hope you will agree to invest in my voice and be eligible for the match.

Here is a link to a printable page [4Gen Support Form](#) to facilitate your gift response.

If the link is not accessible, please send me a note asking for a Word version or simply provide your name, postal mailing, e-mail address and phone contact.

Please send your check payable *4Generations Institute* along with your complete contact information to:

Please take a moment to consider my request. A gift in any amount would be sincerely appreciated and promptly acknowledged.

As I build the 4Generations Institute initiative to promote inter-generational communication, community leadership, policy/program advocacy and volunteer commitments, I am awed by the power of relationships.

Just as in families, the health of a community is in the depth and breadth of relationships among those who share common interests and provide mutual support.

I look forward to communicating Institute's message to influence the public policy debate on behalf of every age and stage of life. While there's strength in our diversities, there's power in our unity!

I also plan to continue counseling students and help a growing number of fledgling and grass-roots family advocacy efforts.

Please remember to keep me in mind for keynote addresses, conferences and annual meeting speeches, seminar and workshop facilitation, professional development sessions, and strategic planning activities focusing on advocacy, communications, resource development, leadership and positioning for success. Allow my voice to boost your priorities and special cause.

I'm honored to be in touch with you and thrilled to send my messages your way. You may forward my messages to your family, friends and colleagues anytime!

Your sharing my thoughts is a high compliment and your replies to me are always welcomed.....please take a few minutes and let me know what you think...and if you prefer receiving my messages at another or additional e-address, please let me know.

On behalf of my family, heartfelt wishes for a healthy, peaceful and productive Summer season.

My best.

FROM: Edward L. Johnson, CEO

SUBJECT: 2<sup>nd</sup> MEMO Mass Shooting Incident

DATE: June 12, 2016, 8 p.m.

We have finalized our adjusted service plan for Links 7, 11, 18 and 40. Beginning Monday morning, until further notice, these four routes will use Gore Street, Division Avenue and Michigan Street. There will not be service along Orange Avenue between Kaley and Michigan streets or on Columbia Street, Sligh Boulevard and Lucerne Terrace.

Also, Link 3 which runs along Delaney Avenue is operating its regular route, walking distance from many of the side streets connecting to Orange Avenue.

Customer Amenities has added temporary stops on Michigan Street at Taylor Ave. near McCoy Federal Credit Union in Sodo and South Orange Avenue at West Pineloch Avenue. The stop on South Orange Avenue at Walmart and PNC Bank will be temporarily closed.

Right now our designer is drawing up maps to show the temporary routing. This will be shared once completed with you, on our website and social media channels.

Our customer service team has been briefed on these changes and are ready to assist customers should they have any questions. LYNX supervisors will be in the field assisting customers along these routes. Additional buses will be available so we are able to minimize delays.

Safety is in routine contact with the City of Orlando's EOC ensuring we are sharing the latest information. Government Relations is keeping elected officials up to speed on our service levels. The LYNX communications team is in contact with the media to help us publicly spread our plan.

As I stated earlier, since the Governor has placed Orange County in a state of emergency we will need to keep accurate records of time and equipment being used in our assistance. Finance will provide us with the appropriate paperwork for proper record keeping.

At this time we do not have an update on the employee whose family member was injured during this incident. We will share the status as it becomes available to us. Please keep the family member and our employee in your thoughts and prayers.

Please do not forget to notify your immediate supervisor of any suspicious acts.

Stay safe.

SUBJECT: 2<sup>nd</sup> MEMO Mass Shooting Incident  
DATE: June 12, 2016, 4 p.m.

We were notified earlier law enforcement believes their investigation may continue through tomorrow. With tomorrow being a weekday this will impact our services for Links 7, 11, 18 and 40 along Orange Avenue between Kaley and Grant streets. The Transportation Division will coordinate detours for these four routes in line with the City of Orlando's rerouting of traffic. We may have to use additional buses to maintain scheduled services.

Currently, at the request of Family Services we have deployed four vehicles to relocate victims and family members from the downtown Hampton Inn to the Beardall Senior Center. Since the Governor has placed Orange County in a state of emergency we will need to keep accurate records of time and equipment being used in our assistance. Finance will provide us with the appropriate paperwork for proper record keeping.

Additionally, we have learned one of our employees had a family member injured during this incident. The family member is currently in surgery, however, at this time we do not have any more information on their status. Please keep the family member and our employee in your thoughts and prayers.

Please remain vigilant in your work areas. Please notify your immediate supervisor of any suspicious acts.

Earlier this morning our community was impacted by a tragic incident resulting in at least fifty people losing their lives and many more hospitalized. We are all shocked and saddened by this and are prepared to do what we can in assisting local emergency response teams and the community as a whole work through this matter.

Staff is being deployed to the City's Emergency Operations Center (EOC) to assist in any coordinated transportation effort that may be needed. Also, we are encouraged to go to a nearby blood bank to donate blood. This will help in the care of those who were injured and are still hospitalized. I am certain they are in need of all blood types. So, please heed to this request.

We do understand this incident will have an impact on our local services that serve the Orange Avenue corridor. The Transportation Department is rerouting services while law enforcement conducts their investigation. These detours will be in effect until we have been given an all clear.

In closing, please let your immediate supervisor know if you have been impacted by this incident. Through our healthcare plan there are several resources you can access.

As more information is made available we will share with you.

Mr Mayor,

Here in New Mexico we awoke to the horrible news of another mass shooting, this time in your community.

Even though we are 1,000 miles away, we feel your pain for your people. Others may think of us here in NM as country, cowboy red necks, but our hearts cry for Orlando's people tonight as if they were our own neighbors.

We are praying for you, and your community, for healing. You will have a long road ahead, and we wish you God's graces in the coming weeks and months.

Sincerely,

The People of Southern New Mexico

2016-06-12 18:30 GMT-04:00 Mayor Buddy Dyer <[buddy.dyer@cityoforlando.net](mailto:buddy.dyer@cityoforlando.net)>:

This morning our community, and our nation, experienced a horrific crime. Our hearts and prayers are with the victims and their families.

We are dealing with a tragedy that we never could have imagined. What happened this morning in our city could have happened in any community in the country. President Barack Obama has provided the support of the federal government, and Governor Rick Scott accepted my request for a state of emergency in the City. This allows us to bring in additional resources to support our efforts.

We are focused on identifying the victims and notifying their families. Law enforcement is working the scene as efficiently and diligently as possible while being respectful to the remains of the deceased. The names of the victims after their next of kin have been notified are being added to [cityoforlando.net/victims](http://cityoforlando.net/victims).

I am proud of how our community has responded to this tragedy. Our dedicated first responders and hospital staff deserve our thanks. Their actions have saved many lives. And today many residents donated blood to help the victims and joined one another to lend support.

We have set up a hotline for family members of the victims: [407.246.4357](tel:407.246.4357). Aspire Health has also offered grief counselors through the Zebra Coalition who can be reached at [407.228.1448](tel:407.228.1448).

We understand our community is grieving and that vigils are being planned but please hold off on vigils - they represent a serious strain on our limited City and public safety resources, which we need to dedicate to law enforcement and victims.

If you are seeking a location to leave memorial items, please use the green space in front of the Dr. Phillips Center for the Performing Arts in Downtown Orlando.

Despite the fact that this crime will have a lasting effect on our city and country, Orlando is a strong community. We will be grieving together in the upcoming days, weeks and months. We need to support each other and love each other. This tragedy will not define us, but will bring us together.

Mr Dyer,

My name is Vernic Popat I am a resident of our beautiful city Orlando and as I write this email I cant help but to think of the victims that have tragically lost their lives at the Pulse club. I am saddened I am upset I don't know how to feel lots of mixed emotions running at this point.

Each of the victims didn't realize what happened. One minute their laughing having the time of their lives and just letting lose its the weekend. Then to hear gunshots and running in fear of what will happen next.

I want to honor each of the victims in our beautiful city. I would like to plant somewhere in Orlando 50 mulberry fruit trees. These are beautiful, strong trees our victims will not be forgotten and we will never forget. I would like you to be there personally by my side with us to honor these individuals. Please let me know how to go about being able to do this. I will be back in my office on June 22nd we can talk then and communicate by email now.

Sincerely,

It is a shame that a city with departments and staff to support and reach out our Spanish speaking neighbors couldn't have native speakers of Spanish involved in posting the names of the fallen. Instead, we can add our on prejudices by assuming they we need to "correct" their names by adding hyphens. If we copied this mistake from driver's licenses or other public documents, let's reach out to DMV and other departments as well.

Gays have been around as long as dirt. Jews for some time have been promoting gays to help them lead up to what happen in Orlando Florida at the Pulse night club. In the last seven decades our country has been under serious attack by crooked homosexual dangerous Jews like Jewish Walt Disney and the filthy pigs in Hollywood who own cocaine homo Barack Obama and many crooked politicians. Wall Street Jews are robbing America. Israel Jews are a threat to America. Jews were doing the same thing in Germany till Hitler got control and took out the Jewish trash. If you want save America from the Diablo Homosexual Drug Porn Pushing Jews who are robbing and destroying USA you have to execute them or force them to leave America. We are better off without these Jewish pigs. I "STRONGLY" believe Jews murdered JFK ,his brother, Mr King and others. If the Jews could they would kill every decent American in our country. WAKE UP USA!

The FBI call me crazy Ron. I call the FBI and other law agencies like useless Homeland Security a waste of time and money, "USELESS". Jews and our crooked government are the crazy crooked rotten bastards. If you want to win the war on crime and drugs and save America you need to kill the enemy.

[If viewing on a mobile device, click here.](#)

Dear Visit Orlando member:

By now I'm sure you've been as surprised and shocked as we all were regarding the news this morning. We are saddened by the recent tragic events that have taken place in Orlando, and have been reaching out to our members, partners and local leaders to keep you abreast of how we are responding as the official tourism organization for the destination.

First let me advise you that frequent updates from law enforcement can be found on Orlando Police Department's twitter feed [@OrlandoPolice](#). For response from the tourism community specifically, the [Visit Orlando blog](#) and social media channels will be updated periodically.

VISIT ORLANDO COMMUNICATIONS ROLE:

- We are in active, ongoing communication with our local public officials and tourism leaders and offering our support and resources. For our members, we offer to serve as the voice of the destination for the tourism community, providing a centralized source to answer media inquiries regarding any potential impact to the region from a tourism standpoint. You are welcome to forward any such inquiries you receive to our media mailbox at [media@visitorlando.com](mailto:media@visitorlando.com) and we will respond.

PUBLIC RELATIONS/SOCIAL MEDIA:

- We are actively monitoring the news and developments in traditional and social media outlets. We are seeing many consumers tag the Visit Orlando social media channels with expressions of sympathy and support, as they are often seen by consumers as the official outlets for the destination.

- We are responding as appropriate with the initial statement of support below. (Please note this messaging may evolve as the story progresses.) This has been shared with media and is posted on Visit Orlando social media channels as well as our visitor website.

*"Our deepest sympathies go toward those impacted and affected by this tragedy. We are appalled and saddened by this act of violence. We continue to work with our community partners on the evolving nature of this incident and have total trust in the dedication of our public officials' leadership during this difficult time."*

- *George Aguel, President and CEO visit Orlando*

VISITORS:

- We recognize that our visitors may also want to know how the tourism community is responding, or express their support. To that end, we have posted our response on our visitor website and briefed our call center team. At this point we have not received a significant amount of inquiries from concerned travelers, but will keep you updated if that changes.

As with you all, our thoughts, prayers and support are with the victims and their families and friends. We are also very grateful for our community leaders and the outpouring of support that's already been expressed by so many for our destination. We appreciate your patience and flexibility through this event. Please reach out to your respective counterparts on our team if there is any way we can assist.

Sincerely,

Dear Mayor Dyer

I was so sorry to hear about the shooting at the Nightclub in your City. I cannot fathom how the people of Orlando must be feeling. It is truly a sad day for humanity when an individual carries out such an attack on defenseless young people out to enjoy themselves.

I live in Canada and my wife and children visited Disney World in 2012, 2013 and 2014. Our children are adults (27 and 22) and as a family we had such a wonderful time on each occasion. We loved everything about Orlando and Disney. You have such a vibrant City that welcomed us and millions of others over the years.

May God give you and the people of Orlando the strength and courage to face this terrible situation.

Know that we are all praying for you and the City of Orlando.

Kind Regards and sympathies

Sajjad Hanif

We are dealing with a tragedy that we never could have imagined. What happened this morning in our city could have happened in any community in the country. President Barack Obama has provided the support of the federal government, and Governor Rick Scott accepted my request for a state of emergency in the City. This allows us to bring in additional resources to support our efforts.

We are focused on identifying the victims and notifying their families. Law enforcement is working the scene as efficiently and diligently as possible while being respectful to the remains of the deceased. The names of the victims after their next of kin have been notified are being added to [cityoforlando.net/victims](http://cityoforlando.net/victims).

I am proud of how our community has responded to this tragedy. Our dedicated first responders and hospital staff deserve our thanks. Their actions have saved many lives. And today many residents donated blood to help the victims and joined one another to lend support.

We have set up a hotline for family members of the victims: [407.246.4357](tel:407.246.4357). Aspire Health has also offered grief counselors through the Zebra Coalition who can be reached at [407.228.1448](tel:407.228.1448).

We understand our community is grieving and that vigils are being planned but please hold off on vigils - they represent a serious strain on our limited City and public safety resources, which we need to dedicate to law enforcement and victims.

If you are seeking a location to leave memorial items, please use the green space in front of the Dr. Phillips Center for the Performing Arts in Downtown Orlando.

Despite the fact that this crime will have a lasting effect on our city and country, Orlando is a strong community. We will be grieving together in the upcoming days, weeks and months. We need to support each other and love each other. This tragedy will not define us, but will bring us together.

Mayor Dyer During your interview with Scott Pelly. You praised law enforcement for such a great job during the massacre. If they did such a great job why did they wait until 5 am to storm the building,. Sure you can say if they went in sooner they would have been in greater danger,. That is true. But what about all the lives that would have been saved? Isn't it the responsibility for law enforcement to act as soon as possible!! I know your a politician but please don't praise when cowards are reluctant to act.  
If I am missing something here I would appreciate comments John Bednar

Dear Mr. Mayor,

I have met you on several occasions and I am also good friends with Andrae Bailey as well as Sam Ings and Robert Stuart. My business partner is also an old friend of yours. MR. Robert Harding.

I am reaching out to you today because I have a connection in Sandyhook that may be useful to you and the city. I am sure we can learn so much from their group. They appear to be well organized and prepared to mobilize.

Please let me know if I can help put this together for us all.

I HAVE BEEN LIVING IN CENTRAL FLORIDA FOR A YEAR NOW. I AM FROM NEW YORK. I WORK IN ORLANDO AND I CANNOT EVEN BEGIN TO DESCRIBE THE AMOUNT OF CRIME and VIOLENCE I HAVE SEEN HERE. IT IS OUT OF CONTROL, AND GUN LAWS ARE NOT ENFORCED. THERE ARE GUN STORES ON EVERY CORNER, AND EXTREMELY EASY TO OBTAIN. THIS SOCIETY IS HONESTLY IN SHAMBLES ITS SICK. AND NOW THE DEADLIEST MASS SHOOTING IN OUR NATIONS HISTORY. WHEN WILL THIS STATE REALIZE THAT THEY NEED TO MAKE CHANGES?

**Carlie Griffith**

I'm signing this because people shouldn't have to fear for their lives anymore. This mass shooting was a hate crime targeted towards the lgbtq+ and it makes me sick that people in this world can have such hatred towards others. This may have been a hate crime, but these mass shootings can happen in any place to anyone at any time. We need to make a change.

Hey Cassandra,

We have a crew on the ground now in Orlando and they are MOBILE! So much better than relying on a studio. This means we can come to you, and we can do something much earlier.

Would the Mayor be available in the next 2 hours? We can go to him, just let me know the best address. You can reach me on +61 418128581. We are also speaking with Terry Da Carlo. Let me know if there is anyone else in the community who you think would be available and who would be happy to talk to us/ that you would like to give air time to.

Kindest regards,

Lauren.

Please respect our fallen friends and their families by posting their names correctly without inserting a hyphen "-" as if they had compound married names.

Por favor, se debería tener respeto asía las victimas latinas y sus familiares de escribir sus nombres correctos sin los símbolos ( - ).

It is a shame that a city with departments and staff to support and reach out our Spanish speaking neighbors couldn't have native speakers of Spanish involved in posting the names of the fallen. Instead, we can add our on prejudices by assuming they we need to "correct" their names by adding hyphens. If we copied this mistake from driver's licenses or other public documents, let's reach out to DMV and other departments as well.

Thank you,

- Don

You are and have been a great supporter for everyone in this city during your tenure. I have been critical of you at times, over the years, which I feel so small now, considering what we have experienced the last couple of days in Orlando with the two shootings.

I know you have done great things to help make Orlando a safe place, for the LBGTQ community especially. Now we are entering a difficult time in our countries history and I am proud to have you as the Mayor for our city,

Please take care of yourself, and Thank You, for you kindness and positive leadership during this tragedy.

**Subject:** Investigator Gletty's view and facts on the Orlando Terror Attack

Mayor Dyer,

Below are questions and answers for and from Agent Kevin Farrington of the FBI in Federal Court, my handler for a few years, and the State Attorney and Public Defender are asking him about their FBI Operative on this case, me David Gletty. You will read that Agent Farrington states I have been credible and had good results for several years on several different assignments. My point is if I did such a good job for them in the past, agents under oath stating this, then why did they not take me serious when I contacted them about the Domestic Terrorists threats via the emails I received and sent you?

You read that the threats were specific to Central Florida, Orlando Florida/Walt Disney World, Soccer Stadiums and etc. And there was a specific time, on or before 4rth of July 2016 and stating that there are 3 operatives that are employees of Walt Disney World Orlando ready to cause "Major Damage"

That is my point here.

**Part 1:**

Q Sir, I want to direct your attention back to the beginning of this month, February of 2007. And I'd like you to explain, please, how the FBI became aware of the activities of the defendants. I mean, you mentioned a undercover operative. Is that essentially the source of your information?

A Yes, it is.

Q And has this person that is a undercover operative — without revealing their identity — have they ever provided reliable information/evidence to you in the past?

A Yes.

Q On how many occasions, sir?

A An extensive number of years covering areas from Domestic Terrorism to drugs, Extremist groups, weapons and all with very good and credible results.

Q And does that person, sir, have any criminal convictions that you're aware of?

A No convictions, no.

**Part 2:**

Mr. Bodnar: That is all the questions that I have ,for Agent Kevin Farrington, at this moment Your Honor.

The COURT: Mr. Donaldson (for the Defense) your examination.

Mr. Donaldson: Thank you Your Honor and good morning Agent Farrington. You are still under oath Agent Farrington as you know.

A Yes, I know.

Q Agent Farrington you mention that the Government used a Civilian Operative/Investigator in this case and had used him in many other types of cases other than the types that the two defendants are said to be involved in?

A Yes, I mentioned that the Operative has been assigned to cases concerning Domestic Terrorism, Weapons, Drugs and Extremist Groups.

Q It sounds like this Operative is more than just a informant or rat or snitch, is that so?

A Yes, in this case we used a legal Civilian Operative/Investigator so that we would be assured of legality and professionalism.

Q Is this Operative forced to work for the FBI or is he a compensated employee of the FBI?

A The Operative is compensated for his services, but he is not an employee of the FBI.

Q So, you are saying that the Operative is a paid Head Hunter or Mercenary for the FBI?

A No, I am saying that the Operative is a Professional Civilian Operative/Investigator that has been a trusted source in the past and present and is also compensated very well for his services to the United States of America.

Q Agent Farrington is it true that the Operatives name is David Gletty and he.....

### ***Atlantic Institute Unequivocally Condemns Tragic Mass Shootings In Our Beautiful City Of Orlando***

Our nation is once again faced with another tragic mass shooting in our beautiful city of Orlando. We, as the Atlantic Institute, strongly condemn this ghastly massacre in Orlando that has left so many innocent people dead and many more injured. We are offering our deepest condolences to the victim's families. We owe a debt of gratitude to the law enforcement and first responders for everything they have done during this horrible incident and what they do every day.

Islam recognizes that all life is sacred and anyone who takes the life of any innocent person is akin to killing all of humanity. The actions of groups or individuals engaged in acts of terror do not represent the faith or actions of the overwhelming majority of Muslims worldwide.

Terrorism is designed to strike fear in the hearts of people. Following Paris and San Bernardino, fear has gripped much of American society. It is useful to be reminded that the actions of any individual do not reflect upon others who happen to share that person's faith or nationality or race.

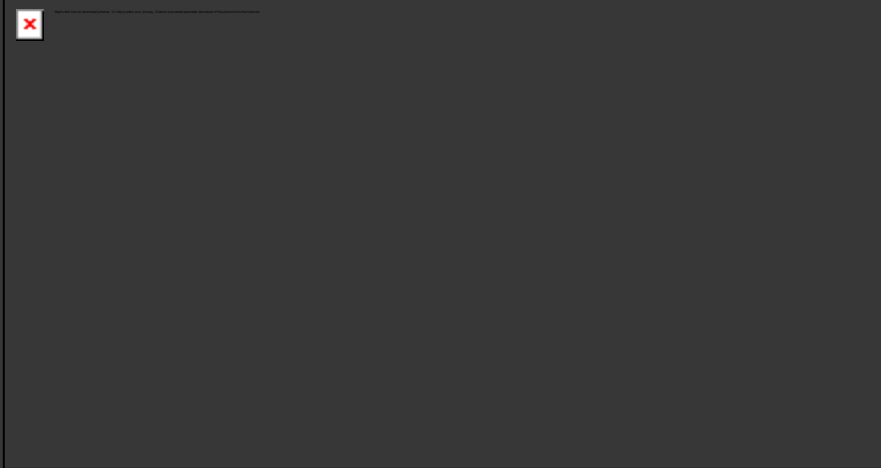

We appeal to all of our fellow Americans of conscience to avoid stereotyping Muslims and stand steadfast against those voices who aim to spread fear and divisiveness. We unequivocally denounce all similar groups who are engaged in any form of terrorism. We condemn their murderous ideology and their brutal tactics. ISIS wants to divide the world between Muslims and non-Muslims. We want to stay united in the fellowship of our common humanity.

**Subject:** #OrlandoStrong

Dear Friend,

Orlando has been ranked repeatedly as one of the most LGBT-friendly cities in the United States. And yet, early this morning in Orlando, we lost fifty of our LGBT friends, with 53 more suffering serious injuries, after a homophobic terror attack at Pulse Orlando.

We are the land of the free and the home of the brave, and that includes the LGBT among us. We will never live in fear, no matter how heinous the attack. But the horrific carnage today reminds us of the hatred and the discrimination that continues to plague us, in a way that we can never forget.

But when I visited Orlando's GLBT Community Center today, to show my support, I was also reminded of love, courage, and empathy that continues to thrive in our city. The lines at blood banks stretched around buildings and down the streets. Local businesses brought free food and drinks for those waiting. Help arrived, already, from as far away as Chicago. In what is perhaps the darkest hour our city has ever experienced, the people of Orlando showed our determination to help their neighbors in need.

An attack on one of us is an attack on all of us. #OrlandoStrong

Many of our supporters from across the country have reached out, and asked how they can help from afar. There are local organizations who need our help to continue providing resources like grief counseling, and healthcare for survivors. Here is how they help, and how you can help:

The Zebra Coalition has opened up a hotline to provide counseling. If you or someone you know needs this service, please call (407) 822-5036 and press #1 to speak to someone. [You can donate to the Zebra Coalition to help it continue to provide this service by clicking here.](#)

The GLBT Community Center of Central Florida is providing grief counseling, in both English and Spanish. If you or someone you know needs this service, the address is 946 N. Mills Avenue in Orlando. [You can donate to the GLBT Community Center of Central Florida to help it continue to provide this service by clicking here.](#)

Equality Florida is our state's largest LGBT advocacy organization. They have set up a GoFundMe page for victims. [You can donate to this fund by clicking here.](#) You can also donate directly to Equality Florida to help it continue to fight for LGBT equality in Florida by clicking [here.](#)

Thank you for standing shoulder-to-shoulder with us. #LoveWins.

Courage,

Why isn't this imaginable? Considering Isis growth, and our large diverse community? If we maintain vigilance and prepare for the worst we can overcome these situations before they get this far. Shots were exchanged with this guy before he went in and took hostages? God bless the first responders and everyone involved. But if we are more careful, maybe we can have an ounce more prevention.

This morning our community, and our nation, experienced a horrific crime. Our hearts and prayers are with the victims and their families.

We are dealing with a tragedy that we never could have imagined. What happened this morning in our city could have happened in any community in the country. President Barack Obama has provided the support of the federal government, and Governor Rick Scott accepted my request for a state of emergency in the City. This allows us to bring in additional resources to support our efforts.

We are focused on identifying the victims and notifying their families. Law enforcement is working the scene as efficiently and diligently as possible while being respectful to the remains of the deceased. The names of the victims after their next of kin have been notified are being added to [cityoforlando.net/victims](http://cityoforlando.net/victims).

I am proud of how our community has responded to this tragedy. Our dedicated first responders and hospital staff deserve our thanks. Their actions have saved many lives. And today many residents donated blood to help the victims and joined one another to lend support.

We have set up a hotline for family members of the victims: 407.246.4357. Aspire Health has also offered grief counselors through the Zebra Coalition who can be reached at 407.228.1448.

We understand our community is grieving and that vigils are being planned but please hold off on vigils - they represent a serious strain on our limited City and public safety resources, which we need to dedicate to law enforcement and victims.

If you are seeking a location to leave memorial items, please use the green space in front of the Dr. Phillips Center for the Performing Arts in Downtown Orlando.

Despite the fact that this crime will have a lasting effect on our city and country, Orlando is a strong community. We will be grieving together in the upcoming days, weeks and months. We need to support each other and love each other. This tragedy will not define us, but will bring us together.

Hello Mayor Dyer,

My name is Krystle Phelps. I am 20 years old and from the small town of Davis, California; about 20 miles west of Sacramento, California. Davis is one of the most tolerant cities I have ever been to. It pains me to see such hate for the LGBTQ+ community. Davis is currently holding a vigil for the lives lost due to recent events.

I infer that you would wonder why someone who is 20 should be trusted to set up such a fundraiser. I have been planning events and fundraisers since I was 9; and this is by far one of the causes I am most passionate about.

I would like to set up a fundraiser in my town to help raise funds to cover some of the hospital bills of the injured and some of the funeral expenses of the dead. However, I do not want to do so without your permission or the permission of someone else who is authorized to give that consent.

I plan to set up a GoFundMe, a car wash, and get cash and check donations from local businesses which I would then put directly into the GoFundMe. I understand that other accounts have been set up for this exact cause; but I believe Davis as a whole can do a lot to help.

The GoFundMe would be set up so funds could be transferred over to the City Of Orlando at any time. My goal is to raise at least \$3,000 over the course of the next week or two. I know it's not a lot but I hope it can help; even if just a little.

I know you're busy, and thank you for taking time out of your hectic day to read and respond to my email.

Sincerely,  
Krystle Phelps

Dear  
Sir ,

We are a family of 4 from Mumbai (India) visiting Orlando from 14th to 21st June 2016.  
This will be our 1st visit to the USA.

We will be taking our United Airlines flight from Mumbai to Orlando in approx.14 hours  
from now.

We just read about the news of the shootout in Orlando and are certainly sad and  
worried.

We request you to please guide us :

1. Whether we can must come to Orlando or cancel this plan ?
2. Is it safe for my family to come there ?
3. Would the Disney & Universal parks be fully operational ?
4. Would there be any sort of emergency declared and tension in Orlando ?
5. Would we be able to see the city safely ?

Please revert as soon as possible so we can make plans accordingly.

Warm regards ,

Utpal Mehta (from India)

Something that made me stop and think:

OPD/UCF Officers clear 5 story Building in 1 Hour after reports of a shooter. <http://www.centralfloridafuture.com/story/news/2016/04/26/possible-gunman-reported-ucf-library/83558712/>

Why did police wait 3 hours to shoot the gunman of a mass shooting in a 1 story 2 room building? How many people bleed out during those three hours? How many more bleed out during the next 2 hours after the gunman was killed, and the police waited to enter the building looking for anyone still alive?

Why was there a difference this time?

Mayor Dyer,

First let me give you my deepest condolences for the attacks your city faced this weekend. It is truly horrific. My name is Marisa Moody. I am currently an graduate student at the Korbel School of International Relations in Denver, Colorado. I am studying International Security and Homeland Defense while specializing in homegrown terrorism. I have researched homegrown terrorism for the past few years and recently wrote a term paper on soft target attacks and how to prepare citizens. I know this must be a chaotic time for you, but I would like to offer you my help. I have attached my resume and also my paper on soft target attacks. I am currently on Summer break and would like to help you and your city out in any way I can. My prayers are with you all.

Sincerely,  
Marisa Moody

# Soft Targets

## How to Protect the Vulnerable

It is imperative that the U.S. begin developing strategies to prepare for, and to safeguard against future terrorist attacks on soft targets; due to the recent increase in soft target terrorist attacks against U.S. and other Western countries. This paper will focus on soft targets in the U.S. and overseas; with an emphasis on vulnerable soft targets within the U.S. Soft targets pose a significant threat to U.S. security due to the large populace of the United States and the ability to easily travel across the country. Indeed, the vast majority of terrorist attacks are against soft targets and the U.S. is highly susceptible to these attacks. Though there will never be a way to completely secure every soft target in the U.S., it is essential for the U.S. to protect its citizens, infrastructure and economy against terrorist attacks on soft targets. The U.S. should also develop strategies to mitigate the damage caused by soft target terrorist attacks.

The purpose of this paper is to discuss the risks posed by soft targets within the United States. Accordingly, it is important to differentiate between soft and hard targets. Following my discussion about the difference between soft and hard targets, I will examine major attacks on Western soft targets; with an emphasis on the U.S., U.K., Spain, and France. By looking at the

attacks in North America and in Europe, I will be able to compare and contrast the types of attacks and see what we should take away from foreign attacks. I will then analyze the extent of the threat posed by soft targets within the U.S. Finally, this paper will offer recommendations on how to protect soft targets in the United States, and how to mitigate damage caused by attacks against soft targets.

The roots of terrorism can be traced back to ancient times. For example, the rape of the Sabine women in the 8<sup>th</sup> century B.C. can easily be classified as an act of terrorism. In this well-known story<sup>1</sup> about Rome's origins, the Sabine women were abducted by Romulus and his clansmen. Romulus and his clansmen captured the women of Sabine due to lack of women within the clan. Additionally, Rome's mythical founder recognized that capturing the women would terrify the clan's competition which encouraged the clan's competitors to surrender to Romulus' forces during future confrontations<sup>2</sup>. The idea of using violence as a means of influence can be seen in every century. However, it was in response to the French revolution that the term 'terrorist' came into being. Before this time, in the English language, the terms thug, assassin, and zealot were used for people committing acts of terrorism; those terms were most frequently assigned individuals involved in religion based terrorism. In 1854, Edmund Burke wrote in his book, "Letters on Regicide Peace," about the Reign of Terror, which was the time period in the French Revolution that involved large amounts of executions. Burke described the reign as, "thousands of those Hell hounds called Terrorists... let loose on the

people.”<sup>3</sup> Burke’s label has become one of the most used and feared words of the twenty-first century.

There are two distinct types of terrorism. The first type is hard target terrorism; which involves targeting people or places that are significantly protected. Examples of hard targets include airports, embassies, nuclear power plants, military bases and government officials. The second, and more common type of terrorism, is soft target terrorism. Soft targets are areas where a large number of people gather regularly. Generally, soft target areas feature multiple entrances and exits making them vulnerable to attacks. Consequently, soft target attacks have the potential to create large numbers of civilian casualties, due to the high volume of people usually found in soft target areas. Examples of soft targets include schools, restaurants, shopping centers, transportation sites and even individual civilians. Terrorist attacks against small targets make up roughly 75% of all terrorist attacks; due to the ease of accessing these vulnerable targets.<sup>4</sup> In January of 2016, 77 of 95 terrorist attacks around the world were made against small targets. Thus, 81% of the attacks in that month were made against soft targets.<sup>5</sup> There has been a major increase in soft target terrorist attacks since the September 11, 2001, attack.<sup>6</sup> Western countries have been plagued with multiple deadly attacks from Islamic extremists, and these attacks are most commonly made against soft targets.

<sup>5</sup> Ibid.

<sup>6</sup> The September 11, 2001, attack is not considered a soft target terrorist attack due to the terrorists have to hijack planes, which did have significant security.

It should also be mentioned that some attacks do not easily fit into one of the two categories. For example, the September 11 attacks involved both hard and soft targets. The airports where the four planes were hijacked had ample security, making them hard targets. Yet hijackers bypassed that security in order to facilitate an attack against a soft target. Indeed, one of the ultimate targets of the September 11 attacks, the World Trade Center, would be considered a soft target due to its lax security and large number of civilians. There is also the question of monuments and museums which have some security on the premise, but not necessarily sufficient security to suppress a well-organized attack. Though all terrorist attacks are awful in their own nature, soft target attacks are particularly devastating in their potential to cause serious civilian casualties in areas where civilians are meant to feel safe and secure.

There have been a notable amount of soft target terrorist attacks against Western countries since the beginning of the Global War on Terrorism. The first major attack was the Madrid Train Bombings in 2003; where members of Al-Qaeda placed ten backpacks containing bombs on four busy trains traveling a busy commuter line. Al-Qaeda operatives detonated those ten bombs during peak commuter hours in order to maximize civilian casualties. The attack killed 191 people and wounded over 1,800. This was the largest terrorist attack in Spain's history and the largest terrorist attack in Europe since the bombing of Pan Am 103 in Scotland in 1988<sup>7</sup>. Europe faced another terrorist attack two years later in London on July 7, 2005; when experienced terrorist attacks the city's metro system. Three bombs were set off on three different underground trains and an hour later a bomb went off on a double decker bus. These

attacks killed 52 people and injured over 700.<sup>8</sup> The London attack is significant in many ways. First, the attack was made against one of the U.S.' most trusted allies. Second, the attack was made against a country with well-developed surveillance system, one that rivals the U.S. Yet the U.S. has also been victimized by soft target attacks. One such attack occurred eight years after the London bombings in Boston, Massachusetts. The Boston Marathon Bombing was caused by two homemade pressure cooker bombs. Yet the attack killed 3 people and injured roughly 260. This was the first highly publicized terrorist attacks involving Americans since the September 11 attacks; and the attack had a major psychological effect on the populace.<sup>9</sup>

Even within the last year, two soft target attacks occurred recently and within a short period of time. On November 13, 2015, nine ISIL affiliated terrorists attacked the city of Paris. The attacks killed 130 people and injured 368 civilians in a stadium, theater and inside multiple restaurants.<sup>10</sup> These attacks shocked the world and seemed to prove that terrorists were still able to terrorize Western countries. America suffered another terrorist attack on December 2, 2015, less than a month after the Paris attacks. The U.S. attack occurred when two ISIL inspired terrorists killed 14 people and injured 22 in San Bernardino, California. Terrorist organizations routinely prove that they are able to hit Westerners anywhere, yet nothing not enough is being done to prepare citizens in Western countries.

390 people lost their lives in the five attacks mentioned in the above paragraphs. Those attacks also injured over 3,000 individuals. This is reason enough for the U.S. and other Western countries to be concerned about protecting and preparing for soft target attacks. We see that the soft target attacks have much in common between the U.S. and Europe. All were in public places that had no security and they were all hit during peak times, in the hopes of increasing casualties. The attacks do differ in some ways though. In the Europe attacks the attackers worked in groups with three or more terrorists, while in the U.S. both attacks were carried out by a set of partners. This shows that the U.S. is not as vulnerable to well thought out and organized attacks as Europe is, but is at risk from partnerships. In some ways this may be more dangerous to the U.S. since it may be significantly more challenging to intercept information about a possible terrorist attack due to the partners being able to communicate to each other with more ease.

The lives of a nation's civilians remain that nation's top priority, as it should be. Yet attacks against soft targets can be directed at non-human targets, as well as civilians. Terrorists seeking to launch a successful attack on a soft target may be attracted by the prospect of attacking a segment of our nation's infrastructure. For example, the power grid would be a perfect location for a terrorist attack. According to Paul Parfomack, High Voltage transformer units make up less than 3% of all the transformers within the U.S., yet they control 60%-70% of the U.S.'s electricity.<sup>11</sup> Most people would assume that these transformers, which make up less than 3% of all transformers in the country, would be given top security; especially due to the

---

<sup>11</sup> Parfomack, Paul. "Physical Security of the U.S. Power Grid." Congressional Research Service. Library of Congress. 17 Jun. 2014.

tremendous importance of these High Voltage transformer units. Yet that is not the case. Parfomack states that the High Voltage transformers “are most vulnerable to intentional damage from malicious acts.”<sup>12</sup> The lack of security around these High Voltage transformers makes them a soft target which in turn makes them more vulnerable to terrorist attacks. If these High Voltage Transformers were attacked and ruined, the U.S. would face serious economic consequences; have significant loss of life; and the nation would face utter chaos. Other types of infrastructure can be labeled as soft targets, yet the power grid raises the most concern to the health of the country as a whole.

Repeated attacks against soft targets within Western nations threaten the mental health of citizens within those nations. Barnett discusses how strong the U.S. is in military matters and how effective America has been in dealing with terrorism in his book *The Pentagon's New Map: War and Peace in the Twenty-first Century*.<sup>13</sup> Barnett does an excellent job in describing what the U.S. does best in regards to responding to terrorism. Yet he does not discuss the emotional impact of soft target terrorist attacks on a country's psyche. Though the September 11, 2001, attacks were not precisely “soft target attack,” two of the hijacked planes hit the World Trade Center which contained civilians. This enormous loss of civilian life changed the American nation. Some American citizens are still dealing with the mental and emotional effects of the attacks fifteen years later. The Boston Marathon Bombing also had a sizeable effect on the country's mental health. People from all over the country felt the fear and sadness from the bombings. Although both attacks occurred in Northeastern American cities, citizens

from all over the U.S. felt the effects of those horrific acts of terrorism. Luckily, the U.S. is a tenacious country and has been able to bounce back from those incidents. Yet the emotional toll of those events still lingers in our nation's collective psyche.

Relative to other nations around the world, the U.S. has been fortunate in regards to terrorist attacks. Despite this luck, the U.S. must be alert to rising threats against the nation and its allies. ISIL is still rising and gaining popularity due to its social media presence. No other terrorist organization has matched ISIL's tailored nature; scope; or the electrifying content of the Islamic State's material.<sup>14</sup> Since the beginning of 2015, 20,000 foreign fighters have traveled to Syria—with a majority of them joined ISIL. Travelers to Syria hail from several nations around the world including Britain, Australia, and the Americas.<sup>15</sup> The large influx of ISIL recruits from western nation is concerning to the U.S., particularly because of the U.S.' close relationships with those western nations. Though most of the people who have gone to join ISIL have been flagged by their home countries, some countries are not as willing to share their information as others. However, in light of the Brussels attack most European countries have increased their information sharing related to citizens joining foreign fighter organizations. Yet, the risk of ISIL foreign fighters' implementing an attack on the U.S. will persist, until western nations begin freely exchanging information about citizens joining foreign fighter organizations.

The rise of ISIL and their resulting large influence on youths all over the world necessitates that the U.S. and other Western countries prepare for future attacks against soft targets. ISIL has proven that they are not only smart but also effective. Using their extensive

<sup>15</sup> Ibid

social media tactics, ISIL has encouraged people to take up the battle for jihad. In the beginning of their recruitment, ISIL pushed their followers to travel to Syria and fight for the caliphate. Yet ISIL has now started encouraging their Western followers to remain in their native nations and fight for jihad at home. By encouraging to commit violence in their native countries, ISIL is helping to make sure their followers do not get caught en route to their strongholds. They also are making it difficult for law enforcement to catch their followers by pushing followers to commit simple acts of violence. ISIL encourages people to use the tools at their dispense, such as guns, knives, and even cars to commit acts of terrorism. As seen in San Bernardino, this tactic can be effective and deadly.

This push from ISIL to commit soft target terrorist attacks in Western countries by Western citizens requires America to make plans to help prevent and mitigate future soft target attacks. Soft targets are not only the easiest to attack, they also have the greatest potential for loss of life. Western countries need to take initiative and start planning on what to do for these types of attacks. In the U.S., most people would not know what to do if a bomb goes off, most would not know where is the most effective place to hide and most would have no idea on how to help their fellow victims. The U.S. should take notes from the British and how they came together to protect their citizens during the Blitz in World War II. Obviously the U.S. does not have to take measures to that particular extreme, but the ideas of having shelters set up, training citizens in basic first aid, and establishing mobile psychiatric clinics for areas dealing with trauma are important to note. These preparations were essential in helping the civilian population survive the Blitz but more importantly these teachings and services mentally prepared them for any occurrence. Citizens felt safe since they knew they had safe shelters to

go to in case of an emergency, they were trained to help not only themselves but their neighbors and they were given the support needed for getting through difficult times. Understandably this cannot be directly implemented in the U.S., since there is not an imminent threat against the U.S. that calls for building shelters and sanctuaries all over the country. Yet it would be prudent to set up safe places in major cities and offer courses in first aid to civilians in order to help prepare citizens for soft target attacks and hopefully mitigate the damage caused by them.

Due to the sheer size of the U.S. it is clear to see that there are many soft targets that are vulnerable to terrorist attacks. Examples of major soft targets in the U.S. include amusement parks such as Disney Land, SeaWorld, Cedar Point and Universal Studios. These parks have little to no security yet they are visited by millions of people every year. Sporting arenas also may be targeted due to their minimum lack of security. Most security in these arenas include a metal detector and bag search, but if a terrorist was motivated enough, they could sneak a weapon into the arena. Museums also pose a threat. In Washington D.C. for instance, the Smithsonian Museums do have metal detectors and search bags, but they are not really concerned about bombs. Like the sports arena, museums are expecting small scale incidences and are not overtly concerned about terrorist attacks occurring at their museum. Transportation is also at risk. The Seattle Ferry that runs through Puget Sound and travels to British Columbia, Canada has no security for boarding the ferry. The list of soft targets in the United States could go on and on, but it is plain to see that the U.S. possesses many soft targets.

There will never be a way to completely secure the U.S., or any nation for that matter, unless you initiate a complete totalitarian government like North Korea (who has had no known terrorist attacks in their country). However, since that is not a solution, this paper will now make recommendations on how to help prevent and mitigate attacks against soft targets and to prepare citizens for soft target attacks.

The first recommendation is for the U.S. to reach out to its allies and form an international organization that has the sole purpose of tracking foreign fighters. There are already agencies who have this responsibility, such as INTERPOL, but due to their other obligations and the rise of foreign fighters, it is important to create an organizations whose sole purpose is to track foreign fighters. This organization should include the U.S., Canada, Germany, France, Belgium, Spain, Australia specifically due the amount of citizens that have become foreign fighters, yet they should allow other countries to participate in this organization. Germany should choose a representative to be the head of this organization due to the large amount of German citizens who have been recruited and all the other countries should play equally important roles to encourage cooperation. This organization will encourage communication sharing between all countries involved and will help prevent terrorists from slipping through the cracks.

Next the U.S. government should work with the media and create a plan to promote vigilance. Currently the media has a tendency to dramatize terrorist attacks and is focused on the “wow” factor. It is time to put that behind and begin reporting on terrorism in a more logical matter. With guidance from the government and academics, the media should begin to

report on ways to spot terrorism, tips for noticing extremist changes in friends and educate the populace on what organizations such as ISIL really are. This will help stop people from being frightened and begin to educate them on the matters at hand.

Due to the massive size of the U.S. and its many different types of communities, it is impossible to create one plan that will evaluate the risks each community faces from attacks. Therefore the federal government should reach out to state and local government and have them run risk assessments on their areas. By having local government running the risk assessments, with help from the state and federal governments, it will provide a more detailed assessment. Locals know their areas better than anyone else and will be able to locate the places most at risk for soft target attacks. With the help of all three levels of government each community can have a specialized plan set in place in case of a soft target attack.

To help prepare citizens in case of a small target attack communities should run multi-agency scenario. Examples of these types of scenarios would be having parents, students, police, fire fighters, EMTs and school officials run scenarios at the school. Another example would be to run a scenario on public transportation. Many agencies run scenario drills, but it is important to let the public be involved in these drills so they can be prepared. Most people consider police, fire, and rescue as first responders to the scene, yet it is the victims who survive that are the true first responders. Running drills with civilians will not only help them be prepared, but also will mitigate the amount of lives lost in attacks.

The last recommendation for this paper has to do with supplies. Most of the survivors from the Paris attack wished that they would have had access to supplies to help their fellow

victims. One survivor, a doctor, said she could have saved a couple lives if she would have had some basic supplies.<sup>16</sup> Therefore it is recommended that the U.S. invests in having medical and other emergency supplies in highly populated areas. This may help save lives in an attack against soft targets by allowing fellow victims to help take care of each other while they are waiting on police, fire, and rescue. These supplies also can be used in case of a non-terrorist attack emergency and have the potential to save lives.

As previously stated, there is no way to make the U.S. 100% secure from soft target terrorist attacks. There will always be the threat of someone taking a gun and shooting up a school in the name of ISIL, but the U.S. can take measures in preparing citizens for these types of attacks. The U.S. can give communities the tools they will need to mitigate the damage of these attacks and the U.S. can do everything in its power to work with its allies to help prevent these types of attacks from occurring on U.S. soil. The devastation that soft target attacks can have on the U.S. and its citizens can hurt the country economically, emotionally, mentally, and can lose the U.S. many innocent civilians.
